

Classeek Ambassador Programme

Enhance Your Career with Tailored Expert Guidance

Overview of the Classeek Ambassador Programme

The Ambassador Programme is a selective, one-year career enhancement experience for 7-8 promising young classical musicians, which offers them a new way to help them succeed on their path to a sustainable, top-level performing career.

The objectives are to find **new audiences** for the artists, grow their **musical networks**, and provide **coaching** on the different elements of a career in musical performance.

How the Programme Works

Instrumentalists have the opportunity for a solo recital or small chamber performance at the Classeek concert hall. Composers receive a solo or chamber commission, with the opportunity to collaborate with musicians who will perform their work in concert.

Other aspects of the programme are available depending on the needs of the artist:

- High-quality video recordings for use by the artist.
- Professional photo shoot and filmed interview.
- Masterclass teaching opportunity with students of Classeek's partner institutions.
- Performance opportunities and industry connections across Europe.
- Opportunities for personal development, including media, PR, project, and career coaching via the Classeek network.

How to Join the Programme

Entry is largely via nomination by one of Classeek's [Artist Ambassadors](#). We have two places available to winners of our open application, one for instrumentalists and one for composers. All applicants must be between the ages of 18-30. Instrumentalists need to have a Bachelor of Music or equivalent.
