

EASY Users' Feedback and Possible Developments

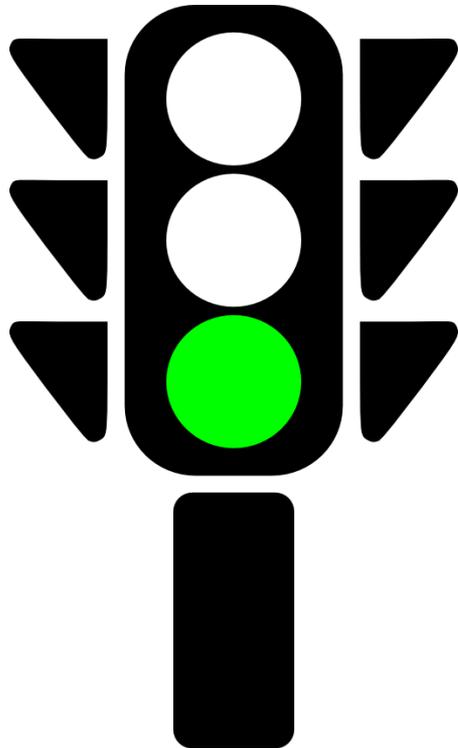

Introductory session for experienced users

Developments and changes discussed by the EASY working group based on the results of the users' questionnaire of Year 2 and solutions proposed by Dreamapply

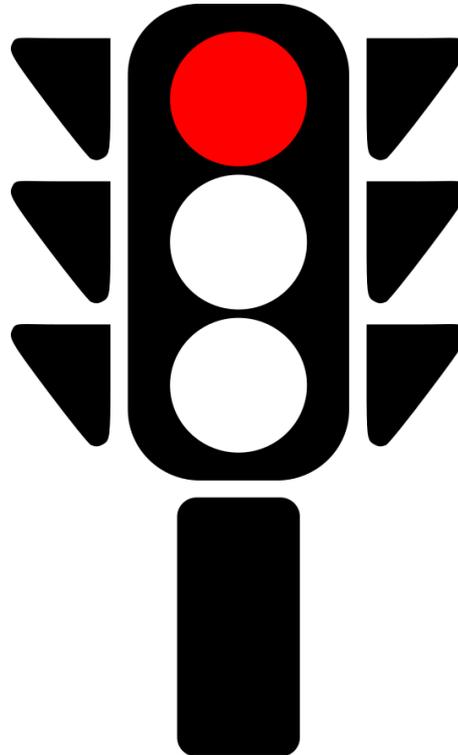

**Subject to the AEC Council Strategic Decision and
Budget Approval**

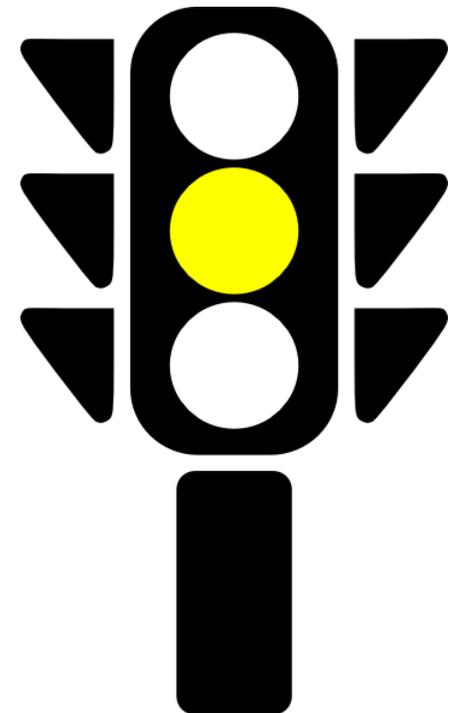

Possible

**Not Possible
due to system
architecture**

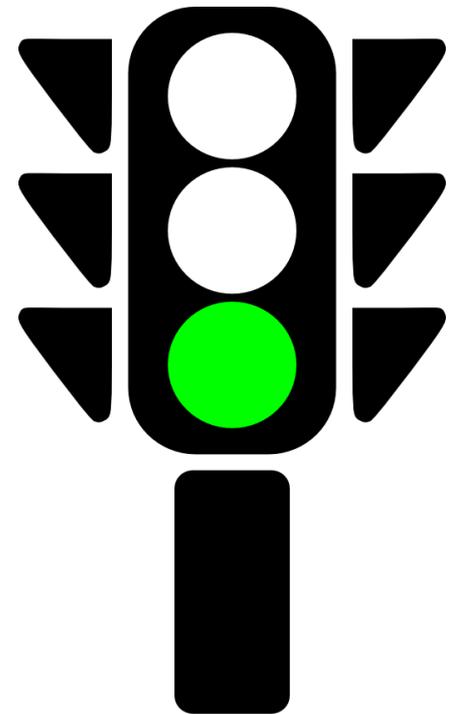

**Could be
possible but
very expensive**

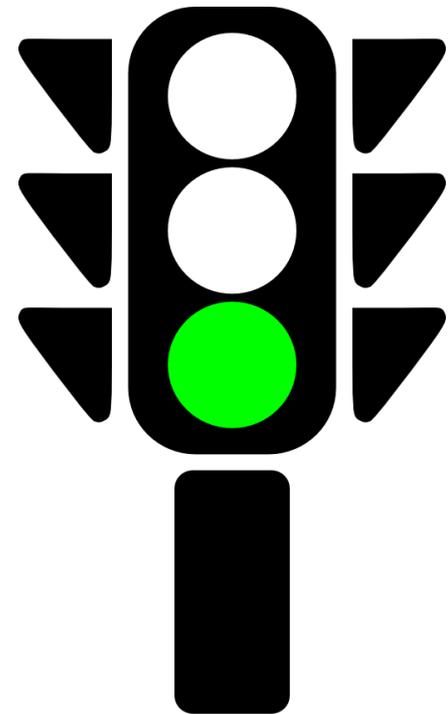

**Alternative
Solutions**

Alphabetization of institutions

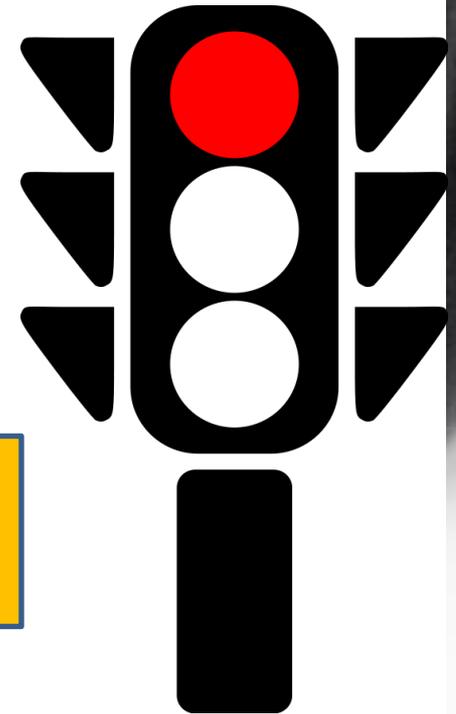

Delete not relevant articles in the knowledge base

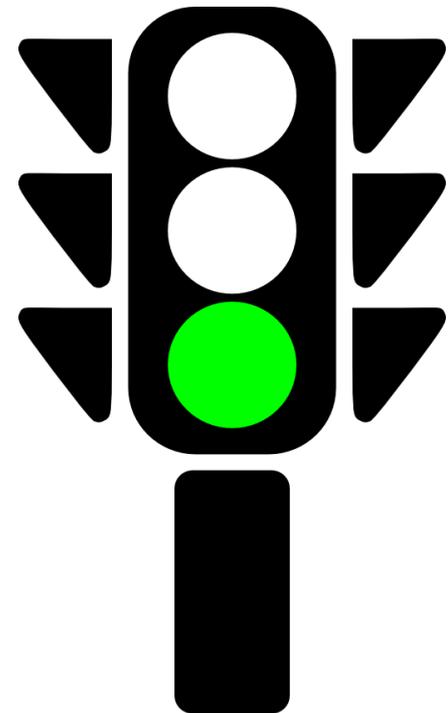

Coordinators would like to receive **journal notifications of outgoing applications**

Alternative
Solution

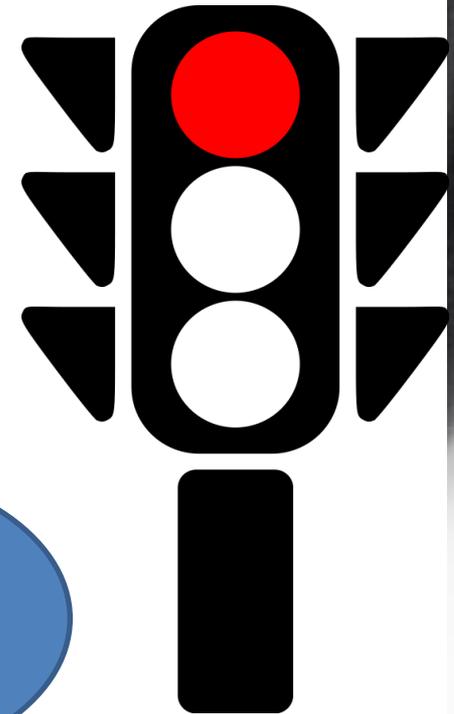

The coordinators would like to receive an **email about acceptance/rejection, submission/resubmission of their outgoing students** (also for externals)

n.b. institution contact details need to be accurate!

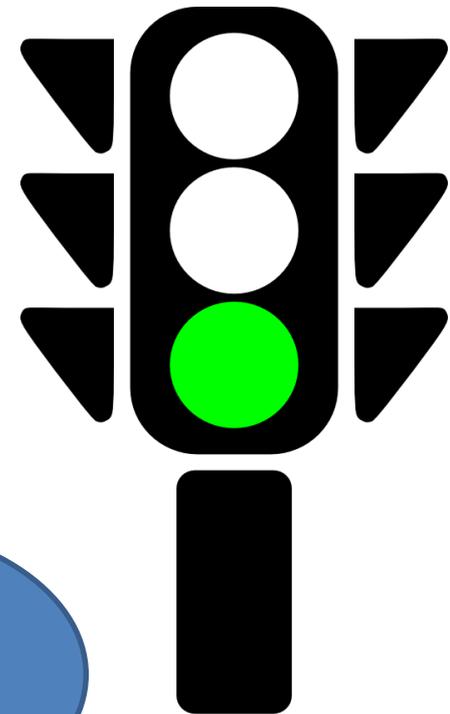

In the emailing function, coordinators would like to have an **address book** of coordinators emails (at the moment a random list of contact appears) or just the email of the partner coordinator of that specific application.

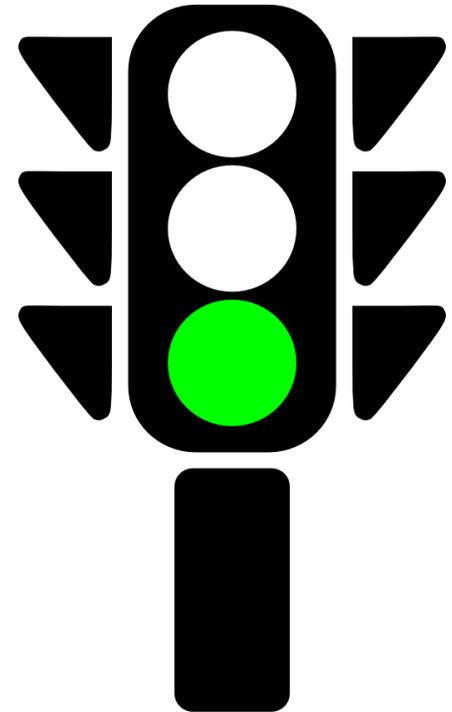

Working
solution linked
to other
developments

Each internal institution would like to have a page where they can see the list of their partners (only), including name and email address of the contact person/s

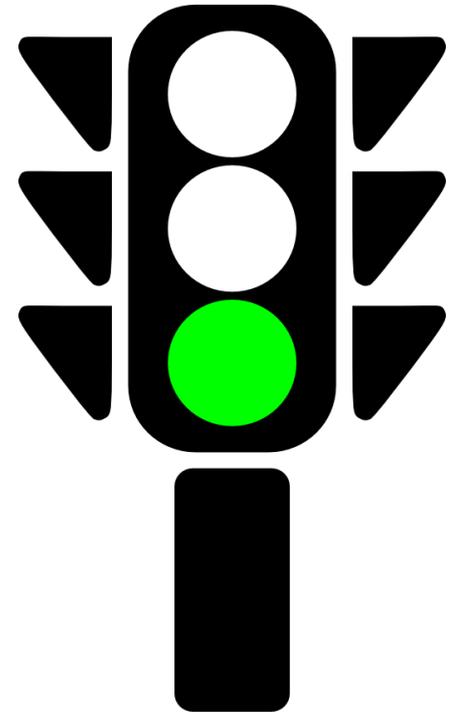

Working solution linked to other developments

As an applicant, after you have chosen your home institution, only the list of partners of your institution should appear

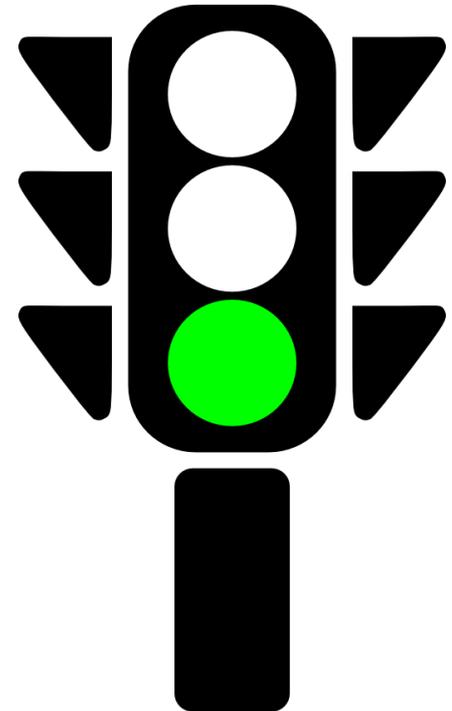

Possibility to **see partner institutions' profile** and requirements

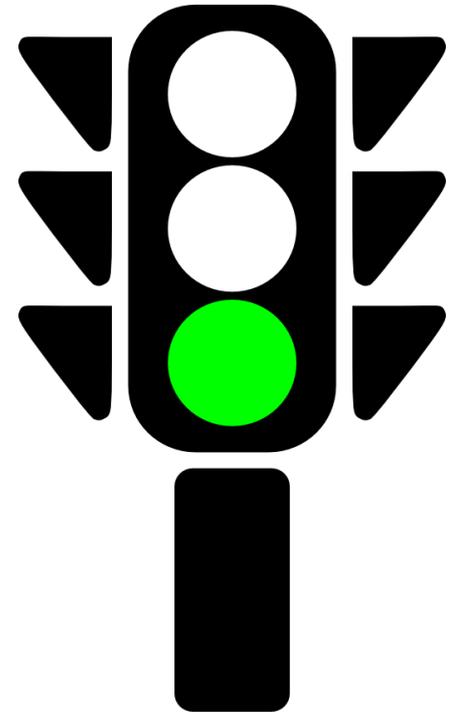

n.b. institution contact details need to be accurate!

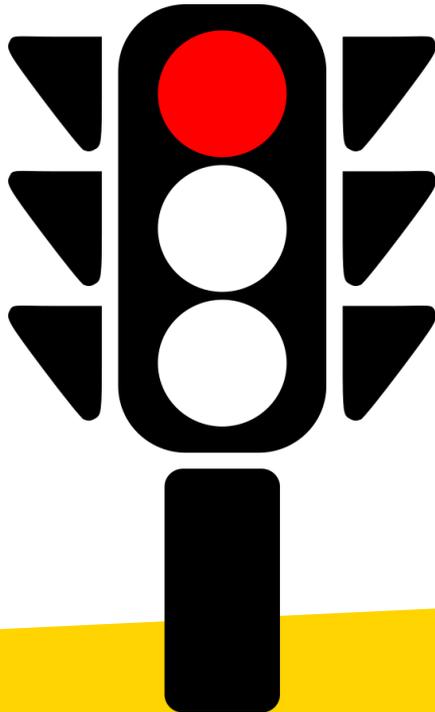

Make some fields and sections of the appform as compulsory

Clone only common fields when cloning the application

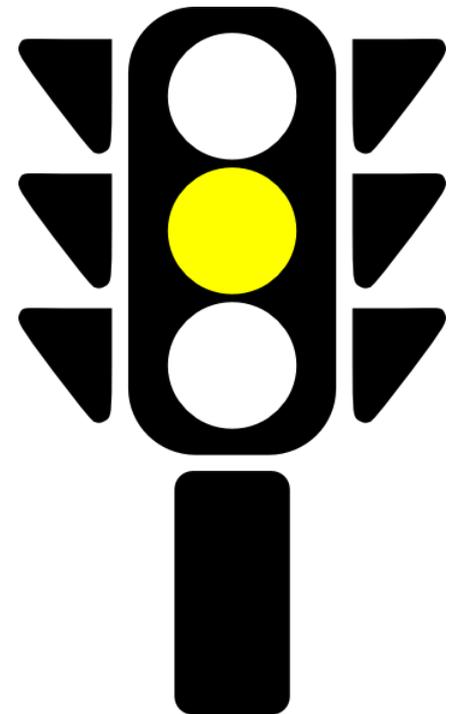

Having a link to the application in the downloaded Export Table or, at least, a link to the media or pdf portfolio.

Alternative Solution:
you have the links
when you are logged in

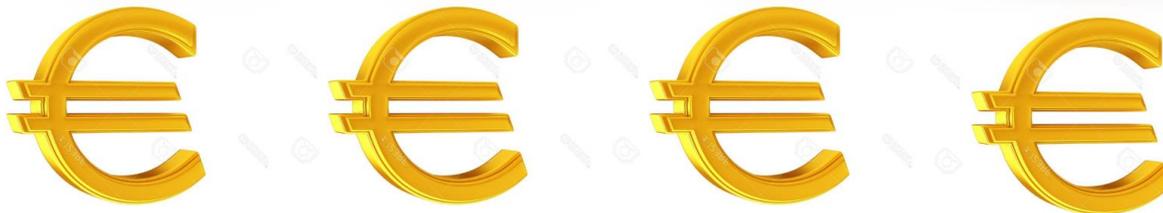

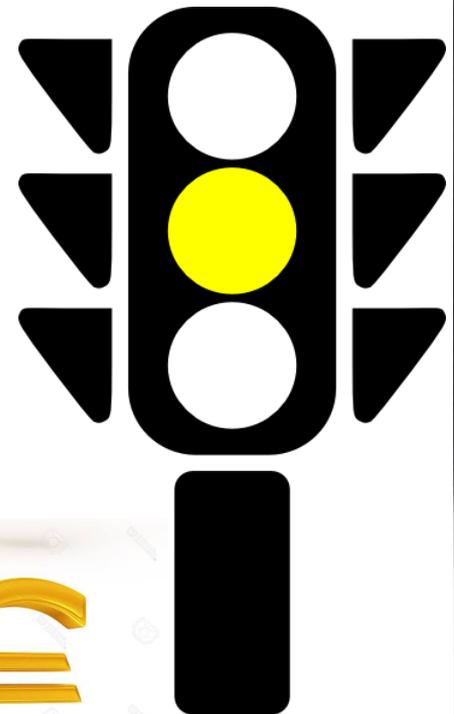

Add the possibility to add an attachment to bulk emails

Alternative Solution:
you can copy all the
email address to
outlook and send the
email from there

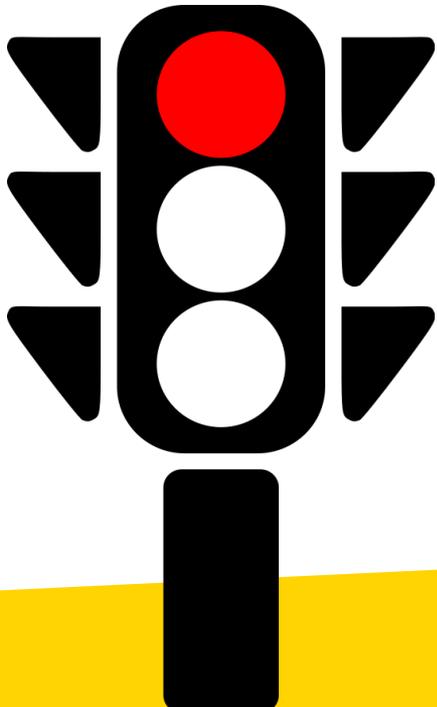

Possibility to customize the order for the offers

Alternative Solution: use filters in the tables

Partners Agreements:

The outgoing agreements should be mutually agreed with the partner (only among internal institutions). It is the receiving institution who should make the click. Basically each institution should be able to authorize its incoming. There could be also a notification to the other coordinator.

Alternative Solutions:

- Code of Conduct
- In the future we could make it that incoming institutions authorize the mobility or that an automatic notification when a click is made

Learning Agreement:

When the 3 parties signed, the document should be frozen. If changes are needed, the signatures have to disappear and the signature process need to start again (with notifications to the 3 parties about the need to resign the document).

This is you!

[Frozen copy](#) [Working copy](#) [Archived snapshots](#)

Please fill in the details of your mobility and add your signature. Then you should notify the sending and receiving coordinators, so that they can sign the agreement as well. Below is an editable preview of the document to be generated, in line with the [template](#). See [disclaimer](#).

 **Erasmus+**

 **Frozen copy**

 Working copy

 Archived snapshots

 When all 3 parties have added their signatures, the agreement will be frozen. You will be able to see the frozen copy here. Any changes must be carried out in the working copy and will not affect the frozen copy, unless of course the changes are again signed by all 3 parties.

All 3 parties have not yet signed the agreement.

 Frozen copy

 Working copy

 Archived snapshots **1**

 At any point in time you can create a PDF snapshot of the agreement in the current state. This file will remain here unchanged - think of it as an archive. It is useful if you want to make sure that a particular state of the agreement is preserved.

2018-09-11, rev #10640

 **Snapshot the agreement (PDF)**

Learning Agreement: it should be possible to change the month if you want to put only the month

Create and put at disposal API to make data flow from EASY to Move On, SoP, Osiris and Campus management system possible

DA is in the process of setting up strategic relationships that would allow for this and hope that we are able to refer a trusted 3rd party next season.

Please note that Export Tables currently let you import data from EASY into other systems
