

A brand new master's programme

Creating New Opera

Four terms full-time studies, 120 credits

Would you like to be involved in shaping the future of opera? In autumn 2020, a master's programme – "Creating New Opera" – will start, aiming at scenographers, playwrights/librettists, costume designers, composers, lighting designers, make-up and wig designers, instrumentalists and opera singers.

Working in experimental, investigative and laboratory ways, you will develop new methods to create opera, in collaboration with others. The education will provide you with tools to redraw the opera map and take opera into the future.

The programme is given in English and is a collaboration between the Royal College of Music in Stockholm (KMH) and Stockholm University of the Arts (SKH).

The program starts in autumn 2020.

Application period:

SKH: 15 November 2019 - 15 January 2020

KMH: 2 December 2019 - 15 January 2020
