AEC Student Working Group letter to AEC member institutions regarding the upcoming 46th Annual Congress and General Assembly

Dear members of the AEC community,

This year the 46th Annual Congress and General Assembly takes place in Turin and is entitled “*Re-imagining success?*” *AEC - Strengthening Music in Society*. The AEC Student Working Group would like to emphasise the relevance of students’ perspectives in relation to this theme and in the enhancement of higher music education altogether.

We would like to invite you to bring at least one student to this Congress who you believe shares the values of the AEC and those of the AEC Student Working Group; a student who will work for the enhancement of higher music education and will contribute to the growth of the AEC network and community.

Together with your students, the student working group aims to grow a European network, to share knowledge and to create better partnership between students and institutions. The Congress will be one step along the way to allow Student Voice in Europe to **SING!** By offering Support to students, teachers, and management, creating Impact through the Network that is built during AEC events, connecting to more local student representation, creating a Global perspective. We hope that we’ll have your support. Should you experience any difficulties bringing a student we encourage you to apply for a Travel Bursary for the student. Please do not hesitate to contact us at studentworkinggroup@aec-music.eu for more information.

Best regards,

The AEC Student Working Group:

Ankna Arockiam (Royal Conservatoire of Scotland, Glasgow, UK)

Eline Accoe (LUCA Arts Leuven, Belgium)

Roberto Boschelli (Royal College of Music, London, UK)

Isabel Gonzalez Delgado (Conservatorio Superior de Música de Murcia, Spain)

Siri Storheim (Norwegian Music Academy, Oslo, Norway)

Baptiste Grandgirard (Pole Alienor, Poitiers, France)

Camilla Overgaard (Royal Academy of Music Aarhus/Aalborg, Denmark)
